CAREER OBJECTIVE

A recent Multimedia graduate passionate about 3D Modeling and Game Development. I am seeking a challenging role to build upon my foundational skills in 3D asset creation and game engine integration. With a strong drive to create immersive gaming experiences, my ultimate goal is to learn from industry professionals and help the Thai gaming industry forward

EDUCATION

2022 – 2026	King Mongkut's University of Technology Thonburi / Bachelor of Science (Applied Computer Science-Multimedia)(CMM) *GPAX 2.93*
2016 – 2022	Sarasas Witaed Rangsit School *GPAX 3.35*

SKILL

Technical Skills

- Blender
- Maya
- Substance Painter
- Adobe After Effects
- Adobe Premiere Pro
- Unity
- Godot

Soft Skills

- Discipline
- Adaptability and flexibility
- Time Management
- Teamwork and Collaboration
- Empathy

EXPERIENCE / PROJECTS

Yannix (Thailand) Co., Ltd. (2025)

Role: 3D Modeler Intern

- Created highly accurate 3D environment models with realistic scale and proportions for Hollywood-level VFX pipelines.
- Focused on precise geometry to serve as integration surfaces for visual effects.

Rise of Realm (Senior Thesis Project) – 2.5D Rogue-like Game (2025 – 2026)

Role: Game Developer

- Designed and developed a 2.5D Rogue-like game using Godot Engine, uniquely blending 3D environments with 2D character sprites.

SiamGarden – Thailand's Soft Power Roblox Game Creation Festival (2026)

Role: 3D Modeler & Animation

- Designed and created 3D character artwork for the game.
- Created animations for the Roblox platform.

Tim Adventure – Global Game Jam (2023) & Jeak Jump – Global Game Jam (2022)

Role: 2D Artist

- Designed characters and created animations for the game.
- Worked under tight deadlines to deliver high-quality assets in collaboration with a team of game developers.

AR Model Designer – 15th CGAM Multi-Relations Sports Event (2023)

- Designed and developed Augmented Reality (AR) models for the CGAM event, fostering collaboration between three universities.
- Collaborated with cross-university teams to create interactive AR experiences for event participants.

Card AR Game Developer (2022)

- Designed and developed a card-based game utilizing Augmented Reality (AR) technology.
- Used tools such as Unity and Vuforia to create the game, focusing on seamless integration of 3D models and interactive elements.
- Developed gameplay mechanics, 3D visual displays, and UI to provide an engaging and immersive experience for players.

ACTIVITIES

- Passionate about drawing and digital art.
- Enjoy exercising and maintaining a healthy lifestyle.
